

Rachel Berry

When you're running a startup,
you need people who can wear many hats.
Fortunately, I've got a whole closet full.

Jr Web Dev - Project Ninja - Data Junkie - Support Hero

1431 S Holt Ave #7

What I've Been Up To:

After moving to LA, I'm having a blast with my new **tech consulting** business for software implementation and **training**. Also taking time to make the family business a well oiled machine. All spare time is spent **learning full-stack web development** with a focus on **Ruby on Rails**. Decided that I love coding so much that I'm going back to school for a **Masters in CompSci**!

Bring on the code! Joined the core **development** team and was the technical lead for a **Java/AWS data processing** solution that saved ridiculous amounts of time and money as the **Lead Operations Engineer** at JOC Group in Newark, NJ

Data, data, data! **Managed a team** of 30 data collection specialists all over the US and became a **SQL master** and **DaaS Customer Service Pro** as a **Process Improvement Specialist** at JOC Group

Saved a ton of money and led an army of **continuous improvement** interns as an **Industrial Engineering Contractor** at Mitsubishi Power Systems Americas (MPSA) in Orlando, FL

Made friends with welders and **manufactured** enormous gas turbine engines as an **Industrial Engineering Intern** at MPSA

Became a **Lean / Six Sigma Pro** as a **Blackhawk Avionics Production Operations Intern** at Lockheed Martin's Missiles & Fire Control Orlando Facility

Statistics & Data galore as a **Human Factors & Ergonomics Researcher** at the University of Central Florida in Orlando, FL

What's Next?

Diving headfirst into an **amazing startup company** and putting my ability to learn quickly to great use! Whether it's as a Jr Web Developer, a Project Manager, a Data Engineer, a Process Improvement Specialist, or a Customer Service Rockstar... I'll do an awesome job as long as there is **room for growth and lots of learning to do!**

Languages and Tools:

Education:

Georgia Institute of Technology

MS in Computer Science

Focus in Database & Software Engineering

University of Central Florida

BS in Industrial Engineering

Minor in Engineering Leadership

Certifications:

- ✓ Google Analytics IQ Certified
- ✓ Lean / Six Sigma Green Belt
- ✓ EI Certification from FLBPE
- ✓ Progress Energy Leadership Institute

Other Things I Like:
